## MEMORANDUM FOR THE RECORD

SUBJECT: Reimbursement for Services, McLean Volunteer  
Fire Department

1. The Office of the DD/S requested that there be included in the FY 1964 Congressional Budget submission a sentence that would provide for payment to McLean Volunteer Fire Department (\$5,000) for fire protection services to the Headquarters Building. The writer discussed this request with [ ] in the General Counsel's Office for the purpose of obtaining guidance as to the language to be used.

2. The discussions with [ ] led to a review of the background of this case, including the file of correspondence with Congressman Broyhill (Va.) in the General Counsel's office and a memorandum written from the Director of Logistics to the Deputy Director (Support). This latter memorandum, copy of which was borrowed from [ ] Chief of Logistics Services covered discussions with the Chief of the McLean Volunteer Fire Department.

3. Following the discussions and the review of background material, [ ] informed the writer that the general feeling in the General Counsel's Office was that the question of whether to incorporate the provision in the Congressional Budget was largely a matter to be decided in the Comptroller's Office; that if it were determined to do this a sentence somewhat on this order appeared adequate, "These estimates include \$5,000 for payment to the McLean Volunteer Fire Department for fire protection services at the CIA headquarters". He stated also that the General Counsel had suggested that a check be made with AEC and/or NSA to ascertain if either Agency had had any experience with similar situations. As NSA is on a military reservation they probably have not had this problem. AEC has their headquarters building at Germantown, Maryland, but has not been contacted. The best person to contact in AEC is not known. (Mr. Gross will be asked to talk to Mr. Houston on whether or not this language should be put in the Budget.)
